Dear Lin and Bryan,

I wanted to take a moment and thank you for your friendly, prompt and courteous service, fixing the roof of my 2007 Mitsubishi Eclipse Spyder GT Convertible. Not much for DIY anyway, I when I looked online I said to myself, "there is no way I could begin this project, let alone finish it without making a major mess" of my otherwise in good shape pleasure vehicle.

I took it to work today (I don't believe Hagerty will mind) without fear of a downpour – the mechanism is working as good as new. You folks are great, and I was particularly pleased that the price was more than fair.

I will be sure to recommend you to anyone who might have a need for your services.

Warmest regards,

Paul Improta
